SECTION 1 – GENERAL EDI ENROLLMENT DOCUMENTS

EDI Provider Information Form

The EDI Provider Information Form is used for initial EDI set up. The information on this form is also used to verify requester information submitted on additional EDI applications. Please follow the instructions carefully when completing the form. Incomplete forms will be returned to the applicant, thus delaying processing.

The name of the provider (an authorized officer's name) must be printed in the space provided and that authorized officer's title and signature must also be included. The name and signature **must match** what is submitted on the EDI Agreement Form.

Providers who submit claims directly from their office will be assigned a Submitter ID. Providers are not permitted to share their personal EDI access number (submitter ID) or password with:

- Any billing agent, clearinghouse/network service vendor.
- To anyone on their staffs who has no need to see the data for completion of a valid electronic claim, to process a remittance advice for a claim, to verify beneficiary eligibility or to determine the status of a claim.
- Any non-staff individual or entity.

The EDI submitter ID and password act as an electronic signature; therefore, the provider would be liable if any entity performed an illegal action while using that EDI submitter ID and password. Likewise, a provider's EDI submitter ID and password are non-transferable, meaning they may not be given to a new owner of the provider's operation. New owners must obtain their own EDI submitter ID and password.

Medicare Electronic Data Interchange Enrollment Agreement

The EDI Enrollment Agreement should be submitted when enrolling for electronic billing. It should be reviewed and signed **only** by the provider to ensure each is knowledgeable of the enrollment request and the associated requirements:

- If the submitter will be submitting for multiple providers, each provider whose claim data will be submitted must complete this form.
- The entire form must be read carefully and then dated with the day, month and year.
- The name of the provider (an authorized officer's name) must be printed in the space provided and that authorized officer's title and signature must also be included. The name and signature **must match** what is submitted on the EDI Provider Information Form.
- When completed, **all three pages** of the properly executed **EDI Enrollment Agreement** must be returned **with** the EDI Application form.

EDI Vendor / Billing Service / Clearinghouse ID Request Form

The purpose of this form is to establish a Vendor / Billing Service / Clearinghouse ID for software vendors, clearinghouses and billing services to submit claim files, or retrieve response reports. Please follow the instructions carefully when completing the form. Incomplete forms will be returned to the applicant, thus delaying processing. The information submitted on this form will be included in the Certified Vendor Directory once you have successfully passed the testing requirements (see Section 3 – Testing Requirements).

Submitters are responsible for notifying Medicare if any information on this form changes, including change of software being used to submit files to TrailBlazer.

Additional Information for Providers

Providers who have contracted with a third party (clearinghouse/network service vendor or a billing agent) are required to have that third party sign an agreement in which they agree to meet the same Medicare security and privacy requirements that apply to the provider in regard to viewing or use of Medicare beneficiary data. These agreements are not to be submitted to Medicare, but are to be retained by the providers.

Providers are obligated to notify Medicare by hard copy of:

- Any changes in their billing agents or clearinghouses.
- The effective date they will discontinue using a specific billing agent or clearinghouse.
- If they want to begin using additional types of EDI transactions.
- Other changes that might impact their use of EDI.

Providers are not required to notify Medicare if their existing clearinghouses begin to use alternate software. The clearinghouses are responsible for notification in this instance.
